GREAT PRODUCTS FOR HOT TUB LOVERS

FILTRATION

GREAT BARRIER™
premium filtration products

blue is better.

GREAT BARRIER PLEATS™

High temperatures and the wet environment make an unprotected filter surface a target for the growth of bacteria. Great Barrier Pleats are made with genuine **Reemay Advantage™ with Microban®**. Microban antimicrobial protection inhibits the growth of bacteria that can cause stains, odors and degradation of the filter surface. The continuous antimicrobial cleaning action of Microban makes the spa filter easier to clean, and keeps it fresher between cleanings.

PROTECTION THAT LASTS

Microban technology is built-in during the manufacturing process so it won't wash off or wear away. The result is durable antimicrobial protection that lasts the life of your filter.

REPLACEMENT FILTERS

The filter cartridge is critical to clean water. Spa filters should be cleaned monthly and replaced every 6 -12 months. See your spa retailer for a complete selection of replacement filters for your spa model.

REEMAY Liberty™ with  **Microban®**
antimicrobial product protection

GREAT FILTER PROTECTOR #5036

Not only does this scum sponge absorb 40 times its weight in body oils to protect the filter from clogging, it reminds you to clean the spa filter.

GREAT CLEANING CANISTER #5047

This handy canister soaks 1 - 2 filters at a time and provides clean, dry storage for spa supplies.

GREAT GRIT FILTER #5039

Grit and other debris can enter the spa and scratch spa surfaces when filling. Eliminate grit with this handy filter that attaches to any garden hose.

GREAT START FILTER #5044

Don't fill your spa with water containing metals, rust and other deposits then add chemicals to make them go away. Cleanse your water before it enters the spa, use less chemicals at spa start-up, and extend filter life.

SPA FRAGRANCES

SPA FRAGRANCES

The easiest way to enhance your spa experience is with a wonderful scent. Your spa retailer offers a variety of spa fragrances that are specifically designed for hot tub use - which means they won't affect the water chemistry in the spa.

Whether you choose liquids, crystals or assorted fragrance packets, there are a variety of scents and aromatherapy options to choose from.
